Subject: [WARNING: DMARC validation failed] Attn: Portland Harbor Superfund Comments, Reject Proposed Changes

Dear Environmental Protection Agency,

Dear EPA Leaders,

As the great, great granddaughter of Oregon Trail Pioneers, please allow me to join others in writing to urge you to reject proposed changes to the 2017 Portland Harbor Superfund Cleanup Plan. The public has waited nearly two decades for the cleanup to begin and it is time to move forward with implementing the 2017 plan as written.

I can remember a time when my parents would not allow me to touch the water in the Willamette River because of the contaminants. Back then we would never consider swimming or fishing in the Willamette. Progress has been made since that time, but it is not enough!

Please clean up the Willamette River as originally agreed and reject changes to the 2017 Portland Superfund Cleanup Plan!!

With the highest regards,

(b) (6)

Sincerely,

(b) (6)

Lake Oswego, OR 97035
